

Linda K. Pelej / Vice President, Information Technology and Services

Linda K. Pelej is Vice President, Information Technology and Services for Manpower North America, a position she has held since August 2005. She leads the development of IT services for business process, financial control, sales and marketing, program governance, business intelligence, e-commerce and client services. She is also the Data Privacy Officer for North America.

Since joining Manpower in 2002, Pelej has held IT Director positions in several capacities, including IT business development for both front and back office applications. Prior to her Manpower career, Pelej spent more than 30 years in the retail sector, as President of a consulting services firm preceded by extensive IT experience at Montgomery Ward.

Pelej, a graduate of Chabot College in Hayward, Calif., has completed executive programs at IBM, the University of Wisconsin and the University of Chicago. She is currently a member of the Wisconsin Corporate Advisory Board, a founding member of the United Way

Women's Initiative, a member of the Mayor's Council for the Milwaukee International Film Festival, a member of the United Performing Arts Fund board of directors and a Junior Achievement instructor.
